Express Trade Capital, Inc   *New York, NY*
- Became familiarized with factoring and purchase order financing.
- Verified invoices, contacted clients and involved factoring companies, and compiled/presented data from the internal database through excel spreadsheets.
- Answered general calls, mediated contact between clients and employees, offered assistance during meetings, and answered customer questions about the company.

PROJECTS

Personal Portfolio Website | *https://wataeri.github.io/*
- Developed a personal website from scratch using HTML5, CSS

Climate Change Website
- An informational website concerning the effect of climate change on marine biodiversity.
- Developed using HTML5 and CSS.
- Full design process available on https://wataeri.github.io/.

Concentration | *Repository available upon request*
- A single player card game in which all the cards are randomized and laid face down. The player must flip two cards over each turn and the objective of the game is to find all the pairs of matching cards.
- Developed using Java in Eclipse.

TECHNICAL SKILLS

Languages: Java, HTML5, CSS, SQL, Racket, Latex
Developer Tools: Visual Studio Code, IntelliJ, Eclipse, JUnit
Design Technologies: Adobe Creative Suite, Figma
